RE: State Environmental Quality Review
Meadowbrook Estates
Town of Cornwall/Town of New Windsor, Orange County

Dear Mr. Petro:

We have completed our review of the revised study (submitted by New Horizon Design & Engineering Consultants) utilizing new site distribution percentages for the referenced proposal, and concur with the new results. However, the revised study should be used for any mitigation analyses purposes (and should be submitted to our Traffic Engineering and Safety group as part of highway work permit application).

If you have any questions, or need any information, we can be reached at (914) 431-5793.

Very truly yours,

Akhter A. Shareef
Senior Transportation Analyst
