Jerry & Myra

We were told they were not working, and we have been providing no inspections at all based on the same. As far as I know they do not have DEC, DOH etc approvals yet. (Myra if you have any approvals on record let me know).

Have they asked to come back in for a preliminary extension, or is their prelim approval now expired?

As far as a fence goes, do you want to bring them back to the PB as a discussion item to discuss it with them.

Mark

, John Mayer, requests that a fence be put up around the retention pond above his property. The plan does not show a fence completely around the pond and can we please specify the type of fencing rather than leave it to the developer to decide after the site plan has been approved.
