Dear Mr. Petro,

We are asking that at your March 9th meeting you approve this application for a Public Hearing with the actual hearing date to be determined when the application is complete. The only outstanding item is the Storm Water Pollution Prevention Plan which has been submitted to the Engineer for review and approval. As you are aware this application is under a tight time frame due to the change in zoning. This requested action could eliminate up to a month in the approval process.

Thank you for considering this request and if you should have any questions or need any additional information please contact me.

Sincerely,
TECTONIC ENGINEERING CONSULTANTS, P.C.
